## WORK EXPERIENCE

### Engineering intern

Aug 2025 – Current

*PayU*

*Bangalore, India*

- Built and maintained Django-based backend services for loan repayment flows used in production.
- Participated in on-call rotations, diagnosing and resolving production incidents through debugging and root-cause analysis.
- Collaborated with cross-functional teams to ship reliable payment features with a focus on correctness and stability

### SDE intern

Feb 2025 – Aug 2025

*Surya FinTech*

*Bangalore, India*

- Gained hands-on experience in React.js, SQL and django by working on real-world software development tasks.
- Collaborated with the team on requirements and enhancing technical skills through discussions.
- Actively participated in code reviews & technical discussions to enhance code quality and development processes.

### Full stack development Intern

Feb 2024 – Aug 2024

*Brandsmite*

*Bangalore, India*

- Developed and deployed multiple full-stack web applications, including both frontend and backend components.
- Gained hands-on experience with MongoDB, including CRUD operations and database design
- Collaborated with a five-member developers team to work on authentication and authorization API

## PROJECTS

### Poloroid | React Js, Tailwind CSS, Django, SQL

Mar 2024 – Apr 2024

- Developed a social media website allowing users to sign up, upload pictures with captions, manage friend requests.
- Built a React frontend integrated with backend APIs for authentication, feeds, and media uploads.
- Implemented user authentication and session management using django backend
- Integrated an AI-based content moderation system using a pretrained NLP model to detect and block hateful or abusive captions during post creation.

### Pixel Pry | React, Tailwind CSS, Express.js, MongoDB

24 May 2024 – 27 May 2024

- Pixel Pry is a web application that allows users to upload images and retrieve them using a custom URL structure
- My role was to develop 8 backend API routes and 2 frontend authentication pages using Express.js and MongoDB.
- Used Tesseract OCR to extract text from images and store captions in MongoDB.

## EXTRACURRICULAR

### NMIT Hacks

24 May 2024 – 26 May 2024

*Nitte Meenakshi Institute of Technology*

*Bangalore, India*

- Attended a 48-hour hackathon at NMIT under the Open Innovation domain.
- Led my team and contributed to both the back-end and front-end of our project (Pixel Pry).

## EDUCATION

### RNS Institute of Technology

Bangalore, India

*Bachelor of Engineering in Information Science and Engineering (CGPA : 8.43 )*

*Dec 2021 - May 2025*

### Kendriya Vidyalaya No.1

New Delhi, India

*12th Grade (90%)*

*April 2018 – June 2020*

## TECHNICAL SKILLS

**Languages:** Python, C++, JavaScript, TypeScript

**Frameworks:** Django, React, Next.js, Express.js

**Databases:** PostgreSQL, MySQL, MongoDB

**Developer Tools:** Git, VS Code, Vercel, Postman, AWS, Docker, Celery

## SOFT SKILLS

Problem Solving , Adaptability , Teamwork , Communication , Attention to detail , Critical thinking , Work ethic
